

# Power Pre-Soak for Flatware

## For Floors:

Formulated to loosen food and grease deposits before dishwashing. Quickly cleans eating utensils and food service equipment. Significantly decreases the overuse of dish machine chemicals.

## How to Use

Add 1 pak to 4 gallons of water. Agitate solution for maximum suds. Brush off loose debris from utensils and equipment before placing in sink. Soak items for 10-15 minutes or longer for tougher soils. Process through dish machine.

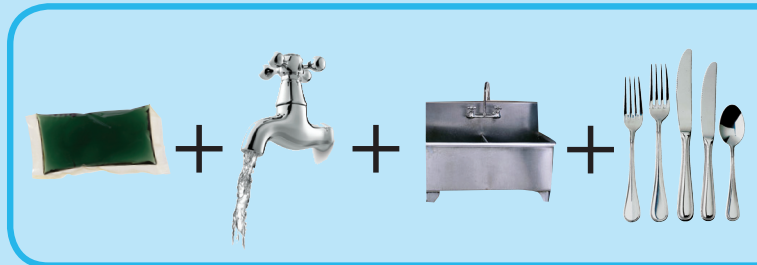

## Where to Use

- Pots & Pans
- Dishes
- Woks
- Glassware
- Silverware & Other Utensils

U.S. Patent No. 6,037,319

### Technical Data

**Pak Size:** 20 Grams  
**Solubility in Water:** Complete  
**pH at Use Dilution:** 7.5 ± 0.5  
**Color:** Clear Dark Green  
**Fragrance:** Almond  
**Phosphates:** None
