

Deodorizer Superberry Scent

For Quarts:

Counteracts malodors without overpowering or damaging the sense of smell, and continues to work long after the pleasant fragrance dissipates. Formulated to control continuous-source odor problems, this product is especially effective for industrial use at garbage and trash sites or waste water treatment plants.

U.S. Patent No. 6,037,319

How to Use

Air Freshening and Odor Control: Add one pak to one quart of water. Shake to mix. Spray, fog or pour directly onto or around odor source.

Resilient and Hard Surface Floors: Add one pak to mop bucket of cleaning solution. Mop in usual manner.

Carpet Cleaning: Add one Pak to carpet shampoo in rotary-type or water extraction equipment.

Where to Use

- Hotels & Motels
- Hospitals & Nursing Homes
- Trash/Waste Sites
- Landfills and Dumping Areas
- Sewage Treatment Facilities
- Dumpsters & Trash Rooms
- Schools, Theaters & Restaurants
- Locations with severe odors
